MICARA™  
A QUALITY SPEAKING BRAND

Micara is one of the most exquisite inventions that make furniture more beautiful, functional and long lasting. While there is plethora of Laminate manufacturers, we present to you Micara, the new entrant with latest technology and naturally appealing designs in laminates replacing wood.

Micara, the company floated by a group of staunch and successful businessmen, seeks to enhance the aesthetics of application of Micara through superior designing, smart manufacturing and deep touches to consumers' needs and wants. While we are focused on meeting customer needs, we also view this business as an opportunity to save and revitalize the Environment. As more people use laminates of Micara, there will be lesser need for cutting trees as our laminates fully and totally resemble natural wood effects.

vision

To create surfaces that mirror nature, enrich interiors, and reduce the burden on our environment.

mission

- Elevating spaces with premium surfaces that blend design
- Crafting beautiful, long-lasting laminates that inspire modern living while respecting natural resources.
- Shaping interiors with laminates that blend elegance and durability.

SPEIFICATION

original and aesthetic

In a world where originality stands for rich luxury, our design team works around the clock to develop laminates that look so different and original that your furniture appears like a piece of art.

visually appealing

We sense that spaces will demand colors, designs and looks that are wide and varied. So, we will be supplying more that 600 designs that are visually appealing and can match any demand from interior design specialists.

efficient, affordable & likeable

The basic need of any product is being affordable, likeable, and efficient in application. Our Laminates will match all the three parameters to dominate the laminate and furniture market. We are sure carpenters will comfortable with applying our laminates while customers will like our products that are affordable.

long lasting

We use imported material wherever required. We have processes well defined and machinery that will produce high quality laminates that perform. We promise that they will last long and will beat the time limits estimated.
